## Make every experience great!

The CTOUCH Laser air+ is a masterpiece when it comes to craftsmanship, technology and making touch accessible to the world.
Integrating innovations like uWand and Beacon receivers, opening a complete new and unique experience in a touch world.
The technology embedded in the uWand interactive gesture remote giving users fluid and accurate direct control, turning into an intuitive hybrid controller.
Joining forces with partners like JBL®, integrating sound designed, tuned and built by Harman, providing unprecedented audio.
Take meetings into a new dimension. Experience the JBL Audio System, an amazing JBL designed speaker system for the CTOUCH Laser air+. The JBL Audio System lets you experience true JBL® high-quality sound for business and education presentations. You've never experienced high-output audio like this from a touchscreen display!

## CTOUCH Home screen

Maximize the flexiblilty in apps and programs with Android 5.0 inside. Combined with the new unique CTOUCH Home screen, every app is within instant reach. Follow meetings with a custom time keeper or annotate over everything!
Flexible to adjust to your needs.

## Providing extra arm length with uWand

With the uWand gesture remote you are able to execute touch gestures. Only now you have the freedom of moving away from the screen and interact more with your audience!
This all comes plug and play out of the box.

## 80 watts to power your presentation

CTOUCH Laser air+ displays include a JBL speaker system - you can expect great sound. The audio system offers 80 watts of amplification – enabling you to captivate your audience. Experience clear highs and mids, plus exceptional bass – the true JBL sound that you've come to love.

## Up to 20 kHz frequency response

No matter where the Laser air+ is located, the JBL audio system will deliver the full range frequency response associated with its exceptional sound.

## Easy direct accessible connections

2 USB inputs on the screen, provide access to instant presenting, adding or sharing documents. The top USB connection on top back side provides a direct webcam USB connection enabling to video conference instantly.

## Multiple touch inputs- less hassle

One of the + advantages of the CTOUCH Laser air+ displays, is the freedom to connect multiple devices without reconnecting the touch cable. CTOUCH includes 4 touch connectors.
1 automatic switch for the PC module, 1 for the Android and 2 automatic switchers for external devices. No hassle with with touch cables or switches- easy as that!

## Smart energy saving

The ambient light sensor automatically adjusts the displays brightness to the most convenient eye sight.
The backlight mute function provides a digital curtain to manage the focus of the audiences and create extra attention on the display when needed. You even don't have to close programs, by a simple tap you're back in business.
Now that's energy & money saving with the Laser air+!
