LEDDURA 2MEET

The new CTOUCH Leddura 2Meet is the ideal meeting collaboration system for **lean and agile teams** that focus on increased efficiency, productivity and collaboration.
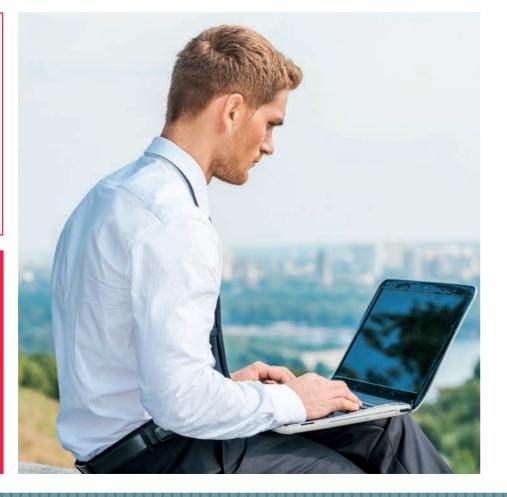

Based on Skype for Business, our solution responds to the rapidly changing needs of corporate working environment.

WHAT YOU SEE IS WHAT YOU GET

- Videoconferencing
- Wireless content sharing
- Multi-touch white board
- Room-booking system

ALL IN ONE SYSTEM. DIRECTLY FROM THE SCREEN. ACCESSIBLE WITH ONE TOUCH.

MAXIMISE EFFICIENCY AND LEAD TIME

Leddura 2Meet supports an environment that fosters innovation, learning and continuous improvement. It enables easy access to the right data, allows for quick decision making and solid progress monitoring. It's all about empowering your team to go for maximum productivity and efficiency.

No worries about overloading your IT department. Its open architecture makes the Leddura 2Meet suitable for commonly-used suites like Office 365, G-suite and device agnostic (Windows, Android, IOS). It also allows you to choose and integrate any windows or online business apps. All in an encrypted, secure and reliable environment.

Room-booking system

| 65" | 75" | 86" |

Internal JBL speakers
JBL Live Stage (Virtual)
Surround Sound
